

About

The Cozad tourism committee continues to work to promote and grow the Barn Quilt Trail in Dawson County. Barn Quilts are considered one of the fastest growing grass-roots arts movements in the country. To continue with the momentum of the project, we created a 50 States Barn Quilt Display in Cozad. This is a unique community art installation that is 6' x 50' with all 50 states represented. Every state has their own square. Each state has an official quilt block, much like a state bird or flower. The heirloom quilt block designs are from a competition held by Home & Hearth Magazine over 100 years ago. People from all over the nation sent in their favorite quilt blocks. The quilt blocks you see on this art installation were the winners chosen by Home & Hearth from each state. Rose Mapel of Rustic Milling & Craft, LLC was commissioned to paint the barn quilt blocks for the project to maintain uniformity in color and design. They are on display at 114 West 7th Street on the Mead Lumber warehouse building. Doug Rowe of Rowe Construction was hired to build the frame and hang all the quilts. The display is generously sponsored by businesses and wonderful people of our community and beyond. There are some states that are still available for sponsorship. For more information on sponsorship contact the Cozad Chamber of Commerce Tourism.

We would love to see your pictures and hear your comments. Post them on Facebook at 50 States Barn Quilt – Cozad NE.
